Harshith Vaddiparthy

Co-Founder & CTO at Kenzai Intelligence | Applied AI Trainer | AI Product & Agentic Systems Consultant
Greater Hyderabad Area

Summary

I build products that further human progress, deeply engaged in Web3 with a focus on growth and marketing. Currently exploring the intersection of LLMs and Blockchain to address critical pain points. Additionally, I produce content sharing insights around the impact of these technologies.

Experience

Kenzai Intelligence Inc.
Co-Founder & CTO
August 2026 - Present (3 months)

Harshith Ventures
Founder & Principal
October 2025 - Present (1 year 1 month)

Outskill
1 year 10 months

Applied AI Trainer & Program Instructor
June 2026 - Present (5 months)

- Deliver professional AI training, applied workshops, and office hours across Outskill’s cohort programs, masterclasses, and enterprise learning engagements.

- Delivered extensive instruction for the AI Accelerator Program, including live workshops, breakout-room implementation, and recurring office hours.

- Taught prompting and RAG, AI Studio, Dify, n8n automation, MCPs, voice agents, vibe coding, image and video generation, and AI customer-support systems.

- Designed practical demonstrations, session runbooks, learner guides, visual workflows, and implementation resources.

- Delivered corporate masterclasses through Outskill partnerships, including Claude, OpenClaw, applied agent workflows, and AI for knowledge work.

- Led learners from foundational concepts through building functioning AI agents, automations, and real-world business workflows.

- Contributed to programs including AI Catalyst, Claude Mastery, AI Generalist Accelerator, and AI Accelerator Program Cohort 11.

AI Mentor
January 2025 - May 2026 (1 year 5 months)

- Mentored learners across Outskill’s cohort-based AI programs through practical sessions, demonstrations, and applied guidance.

- Contributed to AI Generalist Accelerator Cohorts 5, 7, 8, and 9.

- Helped learners understand AI automation, no-code workflows, agentic tools, and practical AI implementation.
Supported live sessions and learner problem-solving through demonstrations, Q&A, and office hours.

- Translated complex AI concepts into practical workflows learners could apply to their work and businesses.

VentureBeat
Guest Author
October 2025 - Present (1 year 1 month)

Guest author writing technical deep dives on AI, data infrastructure, and enterprise technology for VentureBeat's audience of technical decision-makers.

Topics covered include:
- Open-source innovation and ecosystem lock-in
- AI/ML implementation and tooling
- Developer tools and infrastructure
- Enterprise technology strategy

Contributing original analysis and insights on emerging technologies and their implications for enterprise adoption.

Forbes Technology Council
Council Member
August 2025 - Present (1 year 3 months)

Invited member of Forbes Technology Council, an exclusive organization of senior-level technology executives, CTOs, CIOs, and founders.

Contributing expert articles and insights on:
- AI/ML adoption and implementation strategies
- Enterprise technology infrastructure
- Developer tools and emerging technologies
- Growth engineering and scalability

Publishing bylined articles on Forbes.com, sharing technical perspectives and thought leadership with C-suite executives and technology decision-makers across Fortune 500 companies and high-growth startups.

Participating in member networking events and advisory discussions with technology leaders from companies including Salesforce, Amazon, Google, Microsoft, IBM, Adobe, and other leading technology organizations.
